# Staying safe online

**Talk to your parents**

**Don't meet up in real life on your own**

**Use a Nick Name**

**Don't give out your contact details**

**Stay in the public chatroom**

**Don't send your photo to anyone**

**Don't open attachments from people you don't know**

# Dealing with Cyber bullying

**Don't give out your contact details**

**Don't send your photo to anyone**

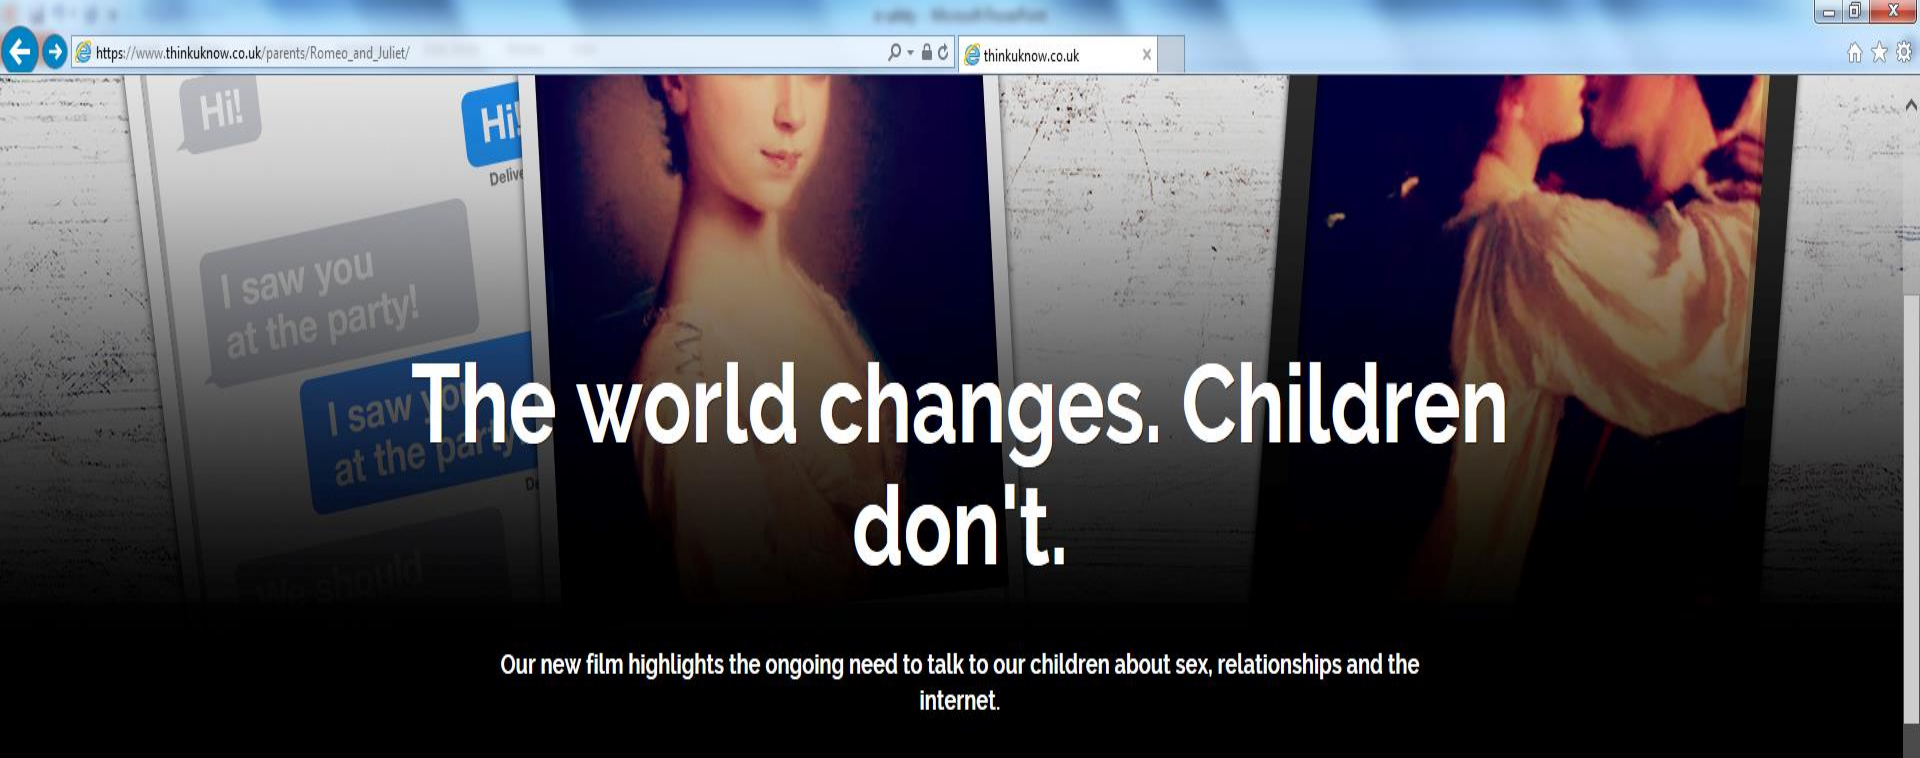

**Don't respond back**

**Contact the website**

**Tell someone – don't suffer in silence**

Some things, like young love, never change. We've given the story of Romeo and Juliet a modern twist, showing how the lives of these young lovers might play out online today.

Social media may have changed the way young people communicate but their curiosity about sex and relationships remains the same. Technology, flirtation, excitement and hormones are a powerful mix. This can make it harder for young people to think clearly about their actions or to consider the possible consequences.

Research tells us that having a supportive parent or carer can make all the difference in helping a young person learn to stay safe, but talking to your child about sex, relationships and the internet can be daunting.

### Concerned?

If you're worried about your child and think something is not quite right, it's best to be on the safe side and find out more.

## Prevent and Stop Cyber-Bullying

Teri Zande, Kidpower Founder and Executive Director | Mar 9, 2012

Protect kids from cyber-bullying using these 8 steps from Kidpower. Understanding the potential for cyber-bullying, getting supportive adult supervision, and practicing these important skills can help keep kids safe from cyber-bullying and other dangers – and have more fun online.

Bullying, whether it happens online, in social media, by text, or through other technology. The following eight steps are from Kidpower's bullying solutions book, [Bullying – What Kids Know and Do to Keep Kids Safe](#).
