

▲ **Northern Europe: Iceland.** Lake Jökulsarlon has many small icebergs which break off the glacier that comes from the ice-cap. Ice melts to make the lake.

▲ **Central Europe: Austria.** These high mountains are called the Alps. In winter, there will be snow here. In summer, the grass is for the cows – can you see any?

▲ **Southern Europe: Sardinia.** The island of Sardinia is part of Italy and is in the Mediterranean. These children are enjoying their holiday in the hot sun.

The countries of Georgia, Armenia and Azerbaijan are really in Asia but are also included on this map because it is at a larger scale.
